BSPS Annual Conference 2010

13-15 September 2010, The University of Exeter

CALL FOR PAPERS: DEADLINE 30 April 2010.

The 2010 BSPS Conference will be held at the University of Exeter from 13-15 September. The University campus is on the outskirts of Exeter with wonderful views over the Exe Valley. All Conference sessions will be held on site, where Conference catering and accommodation will also be available at very reasonable rates.

There will be a full programme of simultaneous strand sessions of submitted papers. Proposals or abstracts for papers and posters are invited across the **entire demographic and population studies spectrum**. For organizational purposes, strand organizers have been allocated to specific themes, but if you wish to submit a paper that does not appear to come under any of the headings given, please enter either 'to be agreed' in the relevant space on the online submission form, or leave the space blank. If accepted, the paper will be allocated to an appropriate strand session when the programme is timetabled.

Submissions of quantitative and qualitative papers are welcome.

This year, some sessions within strands have been suggested and these will be organised by the person named as session organiser, within an overall strand. Sessions within strands are shown beneath the overall strand title and are designated with an arrow bullet point.

Plenary speakers are confirmed as **Professor Bob Woods** and **Dr. Tomas Sobotka**, with a further plenary speaker to be announced. Information updates on the Conference will be posted to the BSPS website as available. See:

<http://www2.lse.ac.uk/socialPolicy/BSPS/annualConference/Home.aspx>

Presenters of posters will be expected to attend the scheduled poster session on the first evening of the Conference, but posters will remain on display for the duration of the Conference.

Preliminary abstracts of papers – which may be in the form of a declaration of intent – (**maximum 250 words, please**), plus a provisional title, should be **submitted online by 30 April 2010 at:**

<https://www.survey.bris.ac.uk/lsewebsite/bsps2010/>

If you are unable to submit online, please contact pic@lse.ac.uk, for alternative arrangements.

All online submissions are collated by the BSPS Secretariat, who will acknowledge submissions. They are then passed on to individual strand or session organisers for assessment. Papers and poster presentations are given equal weight. Final decisions on papers and posters accepted for presentation will be made by the end of May 2010, and the person submitting advised of the decision at that time.

Strand & session organisers are as follows:

- Strand organisers
 - Session organisers
- Ageing: (including ageing populations & future prospects for older people in Britain)

Emily Freeman
Department of Social Policy
London School of Economics
Houghton Street
London WC2A 2AE
Email: E.Freeman@lse.ac.uk
- Families and households:
(for example, research relating to families and households, including the demography of family and household types, studies of partnerships (marriage, cohabitation, non-residential relationships, partnership dissolution), kin networks, relationships, children in families, and issues relating to the family (employment, childcare, wellbeing).

Ben Wilson
Office for National Statistics
2300
Segensworth Road
Titchfield
Fareham
Hants. PO15 5RR
Email: ben.wilson@ons.gsi.gov.uk
- Gender inequality, mothers & children:
(special attention will be given to measures of gender discrimination facing mothers & children, including the relationship between women's empowerment & children's wellbeing.)

Dr. Sylvie Dubuc
Department of Social Policy & Social Work
University of Oxford
Barnett House
Wellington Square
Oxford OX1 3ER
Email: sylvie.dubuc@socres.ox.ac.uk

- Fertility & reproductive health:
 - Immigration, ethnicity & fertility
(Papers aiming at understanding the causes of fertility differences across immigrant and ethnic groups (e.g. socio-economic, socio-cultural, religious, political factors) and the factors of change in fertility over time are particularly welcome. Quantitative and mixed methods studying these issues are encouraged.)

 - Health and mortality:

 - Historical demography:

 - Local authority, census, planning:
 - 2011 Census: Innovations in Content, Accessibility & Comparability:
(Recent developments offer potentials for the 2011 UK Census to provide more information than any previous census, and for this information
